

OUTLAW HYBRID

SIZING CHART AND GUIDE

HOW TO MEASURE:

HEIGHT: Standing Flat Foot, measure from the bottom of your feet to the top of your head. This is sized to fit comfortable around your neck while laying flat on your back. If you would like the quilt to wrap up around your head or if you are a primary stomach sleeper, select the next longer length.

GIRTH: With your arms hanging loose by your side measure the widest part of your body including your arms. For men this will typically be at the forearms, for women this will typically be at the hips. If you are a side sleeper or an active sleeper who tends to toss and turn you should select the next available width.
